

TYPE: ME.TRE-4,5 4,5VA
CORE SIZE: EI38/13,5

Features

- Epoxy resin cast
- Two chambers bobbin
- Insulation primary-secondary: 4KV
- Increased humidity resistance

Manufacturing standard: EN 61558

- Safety insulation transformer
- Max. ambient temperature: t_a 70°C
- Insulation class: B 130°C
- Degree of protection: IP00
- Not short-circuited

- The mains voltage may be 10% higher or lower than the nominal one so the power of the transformer has to be chosen accordingly.
 - The tests of transformers according to the standard EN61558-1 chapter 27.2 were not carried out because the final design of the cover can affect the result. The chapter 27.2 does not concern to the IP00 protection.
 - The threshold temperature at abnormal operating conditions is the temperature which has to be taken into consideration if the transformer is built in a device.
- Not short-circuit proof design, Insulation class: B/225 °C or F/240 °C

Application

- PCB mounting installation
- “B” version to fitting

Ordering codes

- “N” without fixing possibility
- “K” with fixing possibility
- “B” vertical mounting version

Deviation of secondary voltages 5%
